Claims

What is claimed is:

Sub2

1. 1. A method performed by a computer system, comprising:

    2. storing a version of a mass-produced printed paper; and

    3. on a display device, displaying the version as a likeness of the paper including an

    4. indicator of a hyperlink.

1. 2. The method of Claim 1 and comprising:

    2. on the display device, displaying a first selector associated with a first portion of the

    3. paper on the display device;

    4. on the display device, displaying a second selector associated with a second portion of

    5. the paper on the display device; and

    6. on the display device, displaying a likeness of the first portion in response to a

    7. selection of the first selector.

1. 3. The method of Claim 1 and comprising:

    2. receiving a watch list term;

    3. searching the version for the watch list term; and

    4. displaying a result of the searching.

1. 4. The method of Claim 3 and comprising:

    2. in response to a selection of the result, displaying a likeness of a portion of the paper

    3. associated with the selected result on the display device.

Sub3

1. 5. The method of Claim 1 and comprising:

    2. performing a pan function on the likeness.

1. 6. The method of Claim 1 and comprising:

2 performing a zoom function on the likeness.

1 7. The method of Claim 1 and comprising:

2 in response to a selection of a portion of the version, displaying the portion of the

3 version on the display device in an enlarged format.

1 8. The method of Claim 1 and comprising:

2 selecting a type of the indicator.

1 9. A system, comprising:

2 a computing device for:

3 storing a version of a mass-produced printed paper; and

4 on a display device, displaying the version as a likeness of the paper including an

5 indicator of a hyperlink.

1 10. The system of Claim 9 wherein the computing device is for:

2 on the display device, displaying a first selector associated with a first portion of the

3 paper on the display device;

4 on the display device, displaying a second selector associated with a second portion of

5 the paper on the display device; and

6 on the display device, displaying a likeness of the first portion in response to a

7 selection of the first selector.

1 11. The system of Claim 9 wherein the computing device is for:

2 receiving a watch list term;

3 searching the version for the watch list term; and

4 displaying a result of the searching.

1 12. The system of Claim 11 wherein the computing device is for:

2   in response to a selection of the result, displaying a likeness of a portion of the paper

3   associated with the selected result on the display device.

1   13.   The system of Claim 9 wherein the computing device is for:

2   performing a pan function on the likeness.

1   14.   The system of Claim 9 wherein the computing device is for:

2   performing a zoom function on the likeness.

1   15.   The system of Claim 9 wherein the computing device is for:

2   in response to a selection of a portion of the version, displaying the portion of the

3   version on the display device in an enlarged format.

1   16.   The system of Claim 9 wherein the computing device is for:

2   selecting a type of the indicator.

1   17.   A computer program product, comprising:

2   a computer program processable by a computer system for causing the computer system to:

3   store a version of a mass-produced printed paper; and

4   on a display device, display the version as a likeness of the paper including an

5   indicator of a hyperlink; and

6   an apparatus from which the computer program is accessible by the computer system.

1   18.   The computer program product of Claim 17 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   on the display device, display a first selector associated with a first portion of the

4   paper on the display device;

5   on the display device, display a second selector associated with a second portion of

6   the paper on the display device; and

7   on the display device, display a likeness of the first portion in response to a selection

8   of the first selector.

1   19.   The computer program product of Claim 17 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   receive a watch list term;

4   search the version for the watch list term; and

5   display a result of the searching.

1   20.   The computer program product of Claim 19 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   in response to a selection of the result, display a likeness of a portion of the paper

4   associated with the selected result on the display device.

1   21.   The computer program product of Claim 17 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   perform a pan function on the likeness.

1   22.   The computer program product of Claim 17 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   perform a zoom function on the likeness.

1   23.   The computer program product of Claim 17 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   in response to a selection of a portion of the version, display the portion of the version

4   on the display device in an enlarged format.

1   24.   The computer program product of Claim 17 wherein the computer program is

2   processable by the computer system for causing the computer system to:

3   select a type of the indicator.
